Classic Style Meets Modern Performance

BACKPACKER Magazine - April 2018

Thank you BACKPACKER Magazine for Honoring the RENEGADE GTX® MID in Your Hall of Fame!

“Yes, the Renegade is a big, burly leather boot built for eating miles and slaying rough terrain, but dang, is it comfortable. ‘Sliding it on is like going through a portal into a slipper,’ one editor says. ‘You think it’s going to be stiff and unforgiving, but it’s not.’ A plusher-than-usual collar cushions the ankle, a multi piece upper snugs around the foot neatly, and a two-part insole adds a memory-foam-like layer beneath the foot. It’s a recipe that makes the Renegade comfortable out of the box – and after a thousand miles.”
